

ADDENDUM NO. 1 DATED APRIL 29, 2009
DEMOLITION PACKAGE FOR
CABARRUS COUNTY OFFICE SATELLITE COMPLEX
CABARRUS COUNTY
CONCORD, NC
COMM. NO: 28060.02

CLARIFICATION STATEMENTS

1. Review of the plans by NCDENR in Mooresville have the following additional requirements to the plans:
 - a.) Rock check dams were added to the temporary diversion ditch at approximately 100' apart along the west and south property lines on sheet C-3 and C-4. Approximately 8 rock check dams have been added to the plan to meet state requirements.
 - b.) A note was added to C-3 and C-4 to toe in the silt fence at the outlet of the rip rap of the sediment trap. As well as shown graphically the rip rap apron on the plan as per the detail on C-5 for the outlet of the sediment trap.
 - c.) We have added approximately 475 linear feet of additional silt fence on the south side of the middle paved driveway into the site to maintain sediment from getting into the existing ditch line along Union Cemetery Road.
